TVS Motor Company has launched the updated model of its commuter motorcycle, the [Radeon](#), in India. The motorcycle comes with additional features which promise to raise the convenience quotient of the Radeon.

New TVS Radeon Updates

Firstly, the new Radeon now comes equipped with a multi-colour reverse LCD instrument cluster which is the first in this segment. Besides the basic information, this display also comprises real-time mileage indicator. It also gets a clock, service indicator, low battery indicator, top speed, and average speed data. Furthermore, TVS has also equipped this version of the Radeon with its Intelligo function which is aimed at aiding fuel saving. This feature switches off the engine after it's left
