

Dabur Q1 profit up 2.8% at ₹514 cr; sees sequential improvement

GROWTH DRIVERS. Rural markets continued to outperform urban for the fifth consecutive quarter, with Bharat growing 390 basis points ahead in both value and volume

Meenakshi Verma Ambwani
New Delhi

Dabur India on Thursday said it witnessed sequential improvement in both domestic and international markets in the June quarter.

The company posted a consolidated net profit of ₹514 crore in the quarter, up 2.8 per cent over ₹500 crore in the corresponding period in the previous fiscal.

Consolidated revenue from operations stood at ₹3,404.6 crore, up 1.7 per cent year-on-year.

Unseasonal rains during peak summer months impacted the performance of Dabur's summer-centric portfolio, particularly in categories like beverages.

The company added that the June quarter performance was driven by market share gains across 95 per cent of its portfolio as well as growth in rural regions.

RURAL RESILIENCE

On the earnings call, Mohit Malhotra, CEO, Dabur India, said, "The quarter witnessed sequential improvement in domestic and

international markets. Despite challenges posed by unseasonal rainfall and geopolitical headwinds in India, the rural markets continue to outperform urban for the fifth consecutive quarter, sustaining their strong growth momentum. Even the urban markets witnessed sequential recovery."

For Dabur India, rural growth has been 390 bps ahead of urban, both in value and volume terms. The company also said that the gap between urban and rural growth has narrowed

Mohit Malhotra, CEO, Dabur India

down indicating a slow but steady recovery in urban India. "Our international busi-

ness remained resilient, delivering a robust double-digit growth during Q1FY26. Our seasonal portfolio, comprising beverages and glucose, was impacted due to unseasonal rains and a very short summer. Growth in consolidated sales was around 7 per cent excluding the seasonal portfolio, while the reported growth was 1.7 per cent, impacted by the

seasonal portfolio. India business revenue grew by 4.3 per cent excluding the seasonal portfolio," Malhotra stated on the earnings call.

He added that despite high inflation, operating profit grew ahead of topline, led by price hikes and cost-saving initiatives. "Looking ahead, we are quite optimistic of a sequential recovery in demand on the back of softening food inflation, favourable monsoon, sustained momentum in rural areas and some green shoots which are visible in the urban demand. Our international business continues to be on a strong trajectory with currency depreciation now lapping over in most of our geographies," he added.

The company expects most of the categories to see

double-digit growth in the September quarter but the beverage business is expected to see single digit growth.

On mergers and acquisitions, Malhotra said, "We want to plug gaps in our portfolio through M&A, and we are scouting for targets. We could look at new age brands in the healthcare, home and personal care and food & beverages segments."

Loans against Property (LAP) business also showed growth, with the NBFC disbursing ₹4,705 crore in Q1 FY26 at a growth rate of 21 per cent. Net NPA (NNPA) also increased to 2.86 per cent as of June 2025 against 2.63 per cent in March 2025.
