

SUSTAINABLE PROCUREMENT POLICY

We at TVS Motor Company (herein referred as “TVSM” or “The company”), a leading mobility solution provider is committed to adopting sustainable business practices throughout its entire value chain. This policy outlines TVSM's expectations for its supply chain partners in achieving this goal.

Through collaboration with our domestic and global suppliers, service providers, and logistics partners, we strive to ensure compliance with this policy and the adoption of best practices to minimize environmental and social impact.

We commit to:

- Pursue the highest standards of environment, health, and safety in our value chain, and working towards obtaining relevant industry certifications.
- Partner with supply chain partners to set Greenhouse Gas (GHG) reduction targets to strengthen our efforts to meet the challenges of climate change.
- Promote circular economy by encouraging our value chain partners to increase the use of recycled material in their manufacturing processes.
- Prevent all forms of human rights violations in the value chain, both upstream and downstream.
- Integrate both international and domestic human rights standards into our value chain partners' operations.
- Encourage our partners to report the source of conflict minerals used in their processes or parts supplied to TVSM.
- Evaluate our value chain partners on their sustainability performance, including but not limited to environment, health, and safety parameters.
- Raise awareness about TVSM's sustainability pillars and their associated expectations under our Sustainability Ambassador Programme.
- Ensure compliance with all statutory and regulatory requirements and TVSM's Supplier Sustainability Code of Conduct.

This policy will be reviewed every year or as necessary to maintain its effectiveness
