26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Climate Change and Decarbonization	R	Regulations on emissions and fuel efficiency are becoming more stringent across various regions, necessitating design and production modifications that may impact profit margins. Additionally, climate change affects the availability of essential resources like water, posing further operational challenges.	The Company is continuously using renewables in its energy mix, establishing a benchmark for ecofriendly operations in the automobile OEM sector. The Company is committed towards enhancing fuel and resource efficiency in its products while expanding its range of electric vehicle and other low-carbon options	Negative Implications
2	Climate Change and Decarbonization	O	The growing consumer demand for eco-friendly vehicles presents a significant opportunity for our products. Additionally, government subsidies currently support electric vehicles (EVs), further enhancing their market potential.	Revenue growth from eco-friendly products, access to incentives like subsidies, and enhanced operational efficiency.	Positive Implications

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3	Supply Chain Management	R	ESG-related supply chain risks for TVSM include regulatory compliance, supplier ESG performance, resource availability, consumer expectations, and operational disruptions. Effective management is essential to mitigate costs, ensure compliance, and maintain brand trust.	TVS Motor prioritises establishing strategic alliances that resonate with its sustainability objectives. Working in tandem with suppliers, dealers, and consumers, the Company champions a unified approach to sustainability, embedding its dedication to social and ecological stewardship and robust governance throughout the entire value chain. Such collaborations are key to a sustainable future, innovation and ethical conduct.	Negative Implications
4	Market/Product Competition	R	Failing to innovate and remain competitive may result in decreased market share, reduced profits, and diminished relevance within the industry.	TVS Motor prioritises R&D to stay at the forefront of innovation. By keeping a close watch on market trends and customer preferences, the Company aligns its product offerings with consumer demands, thus maintaining its competitive edge.	Negative Implications
5	Market/Product Competition	O	Innovative and efficient products enable the company to stand out, expand into new markets, and seize emerging opportunities.	Market competition enables TVS Motor Company to drive innovation, enhance quality, expand globally, optimize costs, and introduce advanced mobility solutions, ensuring differentiation, improved customer experience, and sustained growth in evolving markets.	Positive Implications
6	Road Safety	R	Road safety poses a business risk to TVS Motor Company due to regulatory compliance costs, potential brand reputation damage, product liability issues, rising insurance expenses, technological adaptation demands, and competitive pressures. Proactive innovation, compliance, and customer awareness are essential for risk mitigation.	The Company is advocating for road safety through ABS-equipped two-wheelers, ensuring rider stability and skid prevention. The programme offers essential support while the #Ride4Safety campaign and 'Helmet Wali Holi' initiative promote safe riding practices.	Negative Implications
7	Occupational Health & Safety	R	Improper battery storage, fire risks in the paint shop, and contractor non-compliance with safety standards pose operational and compliance challenges for TVS Motor Company, requiring strict safety measures and risk mitigation strategies.	TVS Motor's health and safety governance is intertwined with its strategic objectives. Its EHS Policy underpins efforts to foster a safe and sustainable work environment. A cross-level safety culture is championed, from Board members to union-represented workmen, with experts ensuring best practices. Plant-level senior staff and unions implement EHS & OHS Policies, embodying the Company's commitment across global facilities.	Negative Implications

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
8	Integrated Risk Management	O	Integrated risk management enhances TVSM's resilience, regulatory compliance, and sustainability. Proactive risk assessment optimizes operations, strengthens brand trust, ensures business continuity, and provides a competitive edge while enabling the company to seize emerging growth opportunities.	As an ISO 22301-certified company, it has established a robust and integrated risk management process. This includes proactive risk assessment, effective mitigation strategies, risk diversification, and well-defined contingency plans. These measures ensure business continuity, minimize potential disruptions, and maintain a competitive advantage in the evolving market landscape.	Positive Implications
9	Corporate Governance	O	A robust governance framework enhances investor confidence and strengthens TVSM's market position, fostering long-term growth and competitive advantage.	TVS Motor emphasises transparency, ethical conduct, and accountability to build trust and a strong reputation. Its Code of Conduct strictly prohibits bribery and corruption, and steadfast dedication to integrity in business conduct.	Positive Implications
10	Water & Effluent Management	R	Unpredictable rainfall due to changing weather patterns, including El Niño, affects water availability. Groundwater depletion from overuse lowers freshwater access. Stricter water regulations may impose consumption limits, potentially impacting TVS Motor's production processes.	Committed to reducing water usage by adopting efficient practices and water-saving technology. The Company supports sustainable water management by integrating rainwater harvesting, recycling water, and recharging aquifers. It is exploring alternative water sources and collaborating with communities on shared projects.	Negative Implications
11	Circular Economy	R	The Company prioritises effective waste management and circularity, with defined actions for environment management, resource conservation, and sustainable production. The Company's advanced waste management systems exceed regulatory requirements, setting industry benchmarks through meticulous segregation and recycling	TVS Motor is working towards transition from linear economy to a circular economy, eliminating waste and extending resource use by redesigning processes and enhancing product longevity. Embracing a closed-loop system, the Company increasingly incorporates recycled materials, cutting down reliance on virgin resources and lessening environmental impact, thus conserving resources, saving energy, and reducing emissions	Negative Implications
12	Product Stewardship	O	Product stewardship fosters innovation and efficiency, enabling the Company to stand out in the market. By designing eco-friendly products, optimising resource use and demonstrating advanced safety features in its products, the Company positions its products as best-in-class across multiple segments.	TVS Motor's product stewardship emphasises full product lifecycle management via Life Cycle Assessment (LCA) and compliance with Extended Producer Responsibility (EPR). The Company's commitment to environmental labelling, reducing hazardous substances, and creating low-carbon products.	Positive Implications

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, in FY 2023-24, TVS Motor institutionalized its "Sustainable Procurement Policy" to guide its engagement with the supply chain partners. The policy sets a clear framework for suppliers to follow, aiming to reduce environmental and social impacts. It focuses on cutting carbon emissions, ensuring fair labour practices, and providing ongoing training for workers. The policy was communicated to suppliers through email and the internal TVS Motor's Supplier portal.

The Sustainable Supplier Code of Conduct, part of this policy, outlines specific responsibilities for suppliers. It requires them to maintain high standards in health and safety, manage environmental and social risks, and use resources wisely. By working closely with the suppliers, TVS Motor aims to create a sustainable supply chain that benefits everyone and positively impacts the environment and society.

b. If yes, what percentage of inputs were sourced sustainably?

Over the last 1 year, TVS Motor has initiated several sustainable sourcing initiatives to enhance environmental responsibility and operational efficiency. These initiatives are in the process of being consolidated:

- Localizing Suppliers: The company encourages Tier-1 suppliers to establish manufacturing facilities near its plants. This approach not only helps to reduce transportation emissions; also supports local economies.

- **Material Innovation:** The company is transitioning from metallic parts to recyclable plastics and incorporating recycled plastics into vehicles like the TVS Apache, TVS Star City+, TVS Victor, and TVS Jupiter. This shift is aimed to maintain performance and durability while reducing environmental impact.
- **Supplier Certification:** As an IATF 16949:2016 certified company for Automotive Quality Management System, TVS Motor encourages its suppliers to obtain the IATF certification along with SA 8000, ISO 14001, and ISO 45001 certifications. These certifications enhance sustainability and robustness within the supply chain.
- **Sustainable Packaging:** TVS Motor is implementing eco-friendly packaging solutions to minimize waste and environmental impact.
- **Ethical sourcing guidelines:** The company enforces strict guidelines to ensure that suppliers adhere to labor rights, environmental standards, and ethical practices.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for

(a) Plastics (including packaging)

- The packaging plastic materials are managed as per Extended Producer Responsibility requirements.

(b) Battery Recycling Practices

Lithium-Ion Batteries (Electric Vehicles):

- TVS is registered on the Central Pollution Control Board (CPCB) portal as a producer for lithium-ion batteries used in electric vehicles.
- Lithium-Ion batteries installed in TVSM vehicle comply with Labelling requirements as per the Regulations.

Lead-Acid Batteries:

- Lead-acid batteries used in TVS products comply with recycling symbol marking requirements.
- At EOL, these batteries are channelled to recyclers through our dealer and partner network, following the EPR guidelines established by the respective battery manufacturers.

(c) Hazardous waste

- **Used Oil:** TVS Motor has applied to the Central Pollution Control Board (CPCB) for registration as a producer of used engine oil (sold in the after-market) to ensure circularity.
- **Waste Tyres:** TVS Motor procures domestic tyres from supplier-manufacturers registered on the CPCB portal. Additionally, it is also registered on the CPCB portal as an importer for the tyres used in premium models.

(d) Other waste

- **Circular Economy Approach:** High recyclability rates contribute to a circular economy where materials are recovered and reused in new products.
- **End-of-Life Management:** The company is developing a framework for:
 - Collection of End-of-Life Products
 - Dismantling Products
 - Reclaiming Recyclable Materials
 - Reusing Recovered Materials in New Components

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No) If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes,

Reaffirming its commitment to environmental responsibility, TVS Motor Company has met its Extended Producer Responsibility (EPR) obligations under the Plastic Waste Management Rules, 2016. For 2024-25, TVS Motor is on track to collect 1,155 metric tons of single-use plastic waste, ensuring compliance with regulatory requirements. This will be reported to the Central Pollution Control Board (CPCB) as part of its responsibilities as a brand owner.

LEADERSHIP INDICATORS

1. **Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format ? If yes, provide details in the following format**

Life Cycle Assessments (LCAs) have been conducted for iQube in fiscal year 2024-25 as detailed in below table

NIC Code	Name of Product/ Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective / Assessment was conducted	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	If yes, provide the web-link.
291	iQube	9%	Cradle to Grave	No	No	NA

TVS Motor Company conducts Life Cycle Assessments (LCAs) in-house using GaBi software and the Ecoinvent database. The collected data is periodically evaluated to identify improvement areas, enabling targeted actions across product models to reduce environmental impact effectively.

2. **If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective / Assessments (LCA) or through any other means, briefly describe the same along-with action taken to mitigate the same.**

Name of Product / Service	Description of the risk / concern	Action Taken
All IC Engine Products	Tailpipe emissions	All the products comply with the OBD II B regulatory requirements
TVS Jupiter 125 2W CNG	Reduction of tailpipe emissions	Showcased India's first CNG scooter. Jupiter 125 CNG Model displayed in Bharat Mobility 2025
TVS KING 3W EV	Usage of non-hazardous parts / materials	Introduced PVD (Physical Vapour Deposition) process, where trivalent chromium bath is used in place of hazardous hexavalent chromium bath for decorative chrome finish parts. Achieved copper colour for such parts through use of copper and avoided painting process. Silicon hard coating is also eliminated
All ICE Products	Depletion of fossil fuel	All ICE products are tuned for E20 (Ethanol 20% + Gasoline 80%). The ethanol in India is produced from the bio-based sources, which is renewable and carbon-neutral. All ICE products are pasted with E20 Sticker, to inform the customers about the use of fuel in the vehicles

Through continuous efforts, the company is constantly working on improving fuel efficiency (fuel conservation), lightweighting (resource conservation) and reducing the tailpipe emissions. These actions contribute to reduce the emissions during various stages of product life cycle.

3. **Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).**

Currently, TVS Motor is developing its internal framework to track the use of recycled or reused material in the manufacturing process.

4. **Of the products and packaging reclaimed at end of life of products, amount (in metric tonnes) reused, recycled, and safely disposed, as per the following format:**

3. Accessibility of workplaces

Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

TVS Motor is committed to fostering an inclusive and diverse workforce, recognizing the unique needs of the automotive industry's talent pool. With a strong focus on including 3% Persons with Disabilities (PwD), the company has implemented targeted initiatives to create an equitable work environment. Driven by senior leadership, these efforts ensure that Diversity, Equality and Inclusion (DE&I) remain a strategic priority.

In the fiscal year 2024-25, the company was honoured with the Inclusive Workplace Excellence Award in the Pan India Category at the CII EFI National Conference, demonstrating its commitment to inclusivity. As part of its focus on inclusive growth, the company also received the ASSOCHAM 5th Diversity & Inclusion Excellence Awards & Conclave – 2024 in two categories: Best Employer for Persons with Disabilities (Large Sub-category) and Best Employer for Women (Large Sub-category).

To enhance accessibility, all common areas across TVS facilities are wheelchair-friendly, enabling seamless movement for employees. The company strengthens strategic hiring by partnering with organizations to create opportunities for PwD candidates, while role mapping helps identify suitable positions based on skills and qualifications. A culture of inclusion is fostered through continuous learning, with leaders, managers, and teams receiving sensitization training. TVS also prioritizes communication accessibility by offering Sign Language training and utilizing technology-enabled translation tools.

If not, whether any steps are being taken by the entity in this regard.

10 a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No).

Yes

If yes, the coverage of such a system?

TVS Motor Company (TVS Motor) has implemented a comprehensive Occupational Health and Safety Management System (OHSMS) across all its manufacturing plants, operations and across its value chain. The system is designed to ensure a safe and healthy work environment by adhering to global safety standards and regulatory requirements.

Coverage of TVSM's Occupational Health & Safety Management System:

1. All Manufacturing Plants & Facilities:

- OHSMS is implemented across all TVSM production plants to safeguard employees, contract workers, and visitors.
- Compliance with ISO 45001:2018 (Occupational Health & Safety Management System) for best safety practices.

2. Workplace Safety Measures:

- Risk assessment and hazard identification to eliminate workplace accidents.
- Implementation of safety protocols, emergency response plans, digital incident reporting and investigation system and PPE (Personal Protective Equipment) usage.

3. Employee Health & Well-being:

- Regular health check-ups, medical screenings, and wellness programs.
- Ergonomic assessments and workplace modifications to reduce physical strain.

4. Training & Awareness Programs:

- Safety training sessions & campaigns, emergency drills, and awareness programs for all employees.
- Special training for high-risk job roles to prevent workplace incidents.

By integrating a robust safety culture, TVSM ensures that employee health, well-being, and workplace safety remain a top priority across all its operations.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

In compliance with ISO 45001:2018 certification requirements, TVS Motor conducts regular Hazard Identification and Risk Assessment (HIRA) studies across all its sites. This systematic approach ensures consistent risk identification and mitigation throughout the company's operations. Based on insights from these safety audits, multiple proactive hazard control measures have been implemented across plants to enhance workplace safety and minimize potential risks.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes. The company has a robust digital platform called 'Safetymint' that is the cornerstone of its safety reporting process. The platform, is integral to its operations, allowing seamless reporting, investigation of incidents, and dissemination of learnings across all units including supporting departments such as R&D, Quality Assurance, Canteen, Scrap Yard, and others, ensuring a secure and confident reporting process.

Additionally, the 'Snakes and Hazard' program is a collaborative effort that involves all employees. It allows employees to report any equipment-related abnormalities, empowering them to identify new hazards and collaborate with relevant stakeholders, particularly the Plant Maintenance Department, to address and mitigate these issues.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes. TVS Motor Company's Occupational Health Centre (OHC) operates 24/7, ensuring accessibility for all employees, including contract workers. The OHC provides medical care and treatment for both work-related and non-work-related injuries and illnesses, promoting overall employee well-being.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category	FY 2024-25	FY 2023-24
Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked)	Employees	0	0
	Workers	0.20	0.39
Total recordable work-related injuries	Employees	0	0
	Workers	3	4
No. of fatalities	Employees	0	0
	Workers	0	0
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	0	0

12. Describe the measures taken by the entity to ensure a safe and healthy workplace

TVS Motor is committed to creating a safe and healthy workplace for its employees. These measures align with industry best practices, occupational health and safety standards, and sustainability principles. Key initiatives include:

- Four-Stage Safety Clearance Process: Implemented for new equipment to ensure safety is integrated from the design stage. Similarly, safety clearance for layout changes ensures that OHS control measures are incorporated during the design or modification of layouts, minimizing risks.
- My Safety Index (MSI) Calibration: In FY '25, the company transitioned from Plant Safety Score to My Safety Index (MSI). MSI is a single KPI representing the overall Occupational Health & Safety performance across plants, indirect areas, and functions. It evaluates safety through three significant elements: safety culture, processes, systems, governance, and technology, ensuring a holistic approach to workplace safety. For FY 2024-25, the overall MSI score was 81%.
- Partnership with dss+ (Dupont Sustainable Solutions): To transform safety culture from the 'dependent' to an 'independent' stage. FY 2024-25 ended with the progress to the early independent stage through the TICK—Transform, Inspire, Commit, Keep-up program.
- Proactive Hazard Control Measures: 598 proactive hazard control measures have been implemented across plants, including equipment safety features for 3D printing machines, abrasive coating machines, etc. Conforming to ISO standards, 'Advanced Water Mist Fire Protection' has been extended to engine test cells in QAD and R&D.

Other initiatives include:

- Contractor Management Centre (CMC): Assists contractors in effectively managing safety programs, ensuring they are well-equipped with safety protocols.
- Driver Management Centre (DMC): Addresses road safety challenges by providing safe commuting for employees and responsible transportation of goods. Under DMC, drivers are trained on defensive driving, other toolkits, and journey risk management training, establishing better coordination and risk-free association.
- Progressive Disciplinary Action Guidelines: Enforce adherence to critical safety rules.
- Ergonomic Assessments (Rapid Upper Limb Assessment and REBA: Rapid Entire Body Assessment): Evaluate employee fatigue and posture.

The Company actively collaborates with its value chain partners, striving not just to meet industry standards, but to redefine them. TVS Motor's 'My Sustainability Index' (MSI) is designed to drive innovation, foster transparency, and create a ripple effect that could redefine industry benchmarks. By systematically assessing and training its value chain partners in a phased approach, the Company ensures compliance with legal and ethical standards while promoting a network-wide transformation toward sustainable practices. In FY24-25, MSI calibration included 112 suppliers, 57% of suppliers (based on spending), and 100 dealers.

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

TVS Motor Company is working towards ensuring safe and healthy working conditions across its supply chain. The Company proactively assesses its value chain partners' health and safety practices, identifying potential risks and implementing corrective actions. Key risks and mitigation measures include:

Sustainability at Dealers

- **Fire Readiness:** The Company requires its dealerships to implement fire safety measures, which include fire detection systems, extinguishers, and first aid kits. In the fiscal year 2024-25, 222 dealerships adopted these protocols to mitigate risks and protect their assets.
- **Fire Safety Training:** Fire safety training sessions were held during the reporting year. These sessions provided essential knowledge and risk mitigation strategies, significantly enhancing the safety of dealership and warehouse environments. They improved preparedness and response capabilities, ensuring a safer workplace. Approximately 490 participants attended these sessions, contributing to the company's overall safety culture.
- **Road Safety Campaign:** In January 2025, a nationwide road safety campaign was conducted across dealerships in major cities and 19 area offices. This campaign emphasized safe driving practices and traffic awareness. Through 480 dedicated events, it successfully engaged and educated 33,338 individuals, making a significant contribution to road safety and responsible mobility. This achievement reinforces the Company's commitment to the community and responsible business practices.
- **Water Conservation:** The Company's Dry Wash Initiative at dealer workshops aims to conserve water by utilizing steam and waterless cleaning techniques. This initiative reduces wastewater while ensuring effective vehicle maintenance with minimal environmental impact. By promoting these sustainable practices, the initiative aligns with the company's commitment to environmental responsibility and sustainability.

Sustainability at Suppliers

- In FY 2024-25, the Company organized regular safety training sessions to address workplace hazards, fire risks, and emergency response, while risk assessments identified safety gaps for corrective actions.
- During the reporting period, the Company organized 112 supplier capacity-building sessions to raise awareness on energy-efficient measures, water conservation initiatives, waste minimization, recycling programs, and emission reduction to enhance sustainability.

Evaluation and Actionable Insights:

- **Strategic Recommendations:** Feedback collected from stakeholder interactions is analysed and transformed into practical insights and strategic recommendations, guiding the company's actions and policies.

If so, provide details of instances as to how the input received from stakeholders on these topics were incorporated into policies and activities of the entity.

In the last FY23-24, the Company conducted a double materiality assessment to analyse its sustainability impacts and risks. The assessment involved ~500 stakeholders from six groups and identified 19 material issues, with 10 deemed 'Critical' due to their significant influence on business activities and strategies. The Company plans to repeat this assessment every three years to address emerging risks and opportunities. Details of the outcome of the assessment is available in our [Sustainability Report for FY 23-24](#)

3. ***Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/marginalized stakeholder groups.***

TVS Motor Company is committed to social responsibility and actively collaborates with local communities to drive meaningful change. Through direct engagement and third-party assessments, the company gathers community feedback to shape its Corporate Social Responsibility (CSR) initiatives. These initiatives, implemented in partnership with Srinivasan Services Trust (SST), focus on creating a sustainable and lasting impact by addressing present and future community needs.

SST's "Inclusive Change" program is designed to promote holistic development across key areas:

- **Environment:** SST raises awareness about soil erosion, deforestation, and climate resilience while promoting tree plantation and sustainable agricultural practices. Farmers are actively encouraged to adopt eco-friendly methods for long-term sustainability.
- **Healthcare:** Preventive healthcare programs prioritize maternal and child health, nutrition, and access to essential care. Initiatives such as toilet construction, clean water supply, and hygiene promotion help prevent diseases and improve overall well-being.
- **Livelihood Development:** SST empowers individuals and self-help groups (SHGs) by facilitating access to government welfare programs, fostering economic self-sufficiency, and supporting skill development.
- **Social Development:** Community-driven initiatives enhance overall social well-being, fostering inclusivity and growth.
- **Education:** SST ensures that children have access to quality education, supporting their academic development and future opportunities.

By implementing these focused initiatives, TVS Motor Company and SST work towards building stronger, self-reliant communities, driving positive social change for generations to come.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Company has designated committees to address human rights impacts and issues at its plant level. The Company's human rights policy aligns with international conventions, including the Universal Declaration of Human Rights, the International Labour Organization's Declaration on Fundamental Principles and Rights at Work, and the United Nations Guiding Principles on Business and Human Rights. These frameworks guide the Company's commitment to ethical labour practices, fair treatment, and workplace rights.

TVS Motor's Supplier Sustainability Code of Conduct is a comprehensive framework that promotes human rights protection and responsible business practices across its supply chain. It prohibits child labour, forced labour, and human trafficking, ensuring compliance with international and local laws. Suppliers must provide fair wages, safe working conditions, and reasonable hours, prioritizing workplace health and safety through training and hazard prevention.

The Code upholds freedom of association, allowing employees to form unions without retaliation, and enforces non-discrimination. Suppliers are recommended to have grievance mechanisms and protection for whistleblowers. TVSM ensures compliance through audits, corrective actions, and training, thereby fostering an ethical and sustainable supply chain that stakeholders can trust.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Company has established strong grievance redressal mechanisms to address human rights concerns and ensure a safe and ethical workplace. At the plant level, committees such as the Prevention of Sexual Harassment (POSH) Committee and the Ethics Committee handle employee grievances related to human rights and ethical conduct.

The Whistleblower Policy provides employees a secure platform to report concerns without fear of retaliation, promoting transparency and accountability. Additionally, the POSH Internal Committee (PIC), formed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition, and Redressal) Act of 2013, investigates complaints to ensure a respectful work environment.

The Company has incorporated grievance redressal sensitization into its employee induction program to enhance awareness. Regular workshops, group discussions, online training sessions, and awareness initiatives educate employees on human rights issues and workplace safety.

TVS Motor demonstrates its commitment to safeguarding employee rights and maintaining an equitable and ethical workplace culture through these structured mechanisms.

6. Number of Complaints on the following made by employees and workers:

Complaints on POSH as a % of female employees / workers	0.58	0.18
Complaints on POSH upheld	0	1

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

TVS Motor is committed to maintaining a workplace free from discrimination and harassment, ensuring employees can report concerns without fear of retaliation. To provide a safe reporting environment, the Company has implemented a robust Whistleblower Policy and a Prevention of Sexual Harassment (POSH) Internal Committee. These provide formal platforms for employees to report grievances, including those related to discrimination and harassment, confidentially and without fear of retaliation. Any attempt to intimidate or retaliate against complainants is considered a violation of the Code of Conduct. Further, all complaints are addressed promptly to ensure swift and fair resolution.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes. Human rights requirements are key to the Company's business agreements and contracts. Suppliers and partners must follow the Supplier Sustainability Code of Conduct, which aligns with international human rights principles, including ILO standards and UN Guiding Principles on Business and Human Rights.

The Company's enforce compliance with child and forced labour prohibitions, fair wages, safe working conditions, non-discrimination, and ethical sourcing. These commitments are contractually binding, ensuring ethical labour practices. Regular audits and assessments monitor compliance, and violations are met with corrective action plans or business termination, demonstrating the seriousness of our stance on responsible and ethical operations.

LEADERSHIP INDICATORS

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints.

In FY25, the company did not receive any human rights complaints. The company has a robust monitoring system to uphold and protect human rights within the organization. The Company has a well-established Human Rights Policy, Code of Conduct, Sexual Harassment Prevention, Fair Practices & Discrimination Policy which strengthens its commitment to maintaining an ethical, inclusive, and compliant workplace. This includes proactive approach of continuous awareness and sensitization through an annual certification system, reinforcing employee understanding of these critical policies.

2. Details of the scope and coverage of any Human rights due diligence conducted.

TVS Motor is committed to social responsibility and the protection of human rights across its operations and supply chain. Through proactive Human Rights Due Diligence (HRDD), the company identifies and mitigates risks using international standards, as evidenced by its SA 8000:2014 certification across all manufacturing plants. In FY 2024-25, no human rights risks were identified, underscoring the Company's strong ethical standards and dedication to social accountability.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes, TVS Motor ensures its premises and offices are accessible to differently abled visitors in compliance with the Rights of Persons with Disabilities Act, 2016. The Company has incorporated barrier-free access features such as ramps, handrails, elevators, accessible restrooms, and designated parking spaces to facilitate ease of movement. Additionally, the Company promotes an inclusive work environment by continuously improving infrastructure and facilities to meet accessibility standards.

4. Details on assessment of value chain partners:

The My Sustainability Index (MSI) is a strategic framework designed to systematically benchmark and train value chain partners. It ensures compliance with legal and ethical standards while promoting a network-wide shift toward sustainable practices.

In the fiscal year, 112 upstream suppliers and 100 downstream dealers were assessed using the MSI, ensuring a consistent and robust sustainability benchmarking approach across the value chain. By reinforcing sustainable practices, the MSI strengthens supply chain resilience and underscores TVS Motor's commitment to sustainability and excellence. Additionally, it supports the company's partnership model, promoting collaboration and shared responsibility among all stakeholders.

As part of new supplier onboarding, the company also conducted an SA8000 assessment to improve supply chain safety. Ninety-six value chain partners were audited for their safety compliance and supported in identifying around 100 improvements in safety and health.

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

The Company encourages its dealers to adopt eco-friendly practices, such as dry washing, to minimize water consumption. Additionally, they are required to implement comprehensive fire safety measures, including fire extinguishers, smoke and fire detectors, and thermal runaway boxes, ensuring a safe and compliant workplace.

In the FY 2024-25, thirty suppliers (30) developed their action plans to address gaps identified under the MSI assessment. As of date, they are working towards addressing these gaps and achieving the set targets with support from the Company through capacity building & training.

5. Has the entity implemented a mechanism for Zero Liquid Discharge?

Yes

If yes, provide details of its coverage and implementation.

TVSM is committed to adopt sustainable water management practices at their manufacturing sites. The company ensures that its facilities do not release any water outside their premises. The Hosur plant in Tamil Nadu is "Zero Liquid Discharge (ZLD)" facility in treating industrial wastewater. Additionally, the use of water saving technologies such as optimised appliances and advanced membrane filtration, has led to a 20-50% reduction in raw water usage.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2024-25	FY 2023-24
Nox	MT	148.38	55.08

8. Does the entity have any project related to reducing Green House Gas emission?

Yes

If yes, then provide details.

TVS Motor Company is committed to reducing its environmental footprint and conserving energy resources. To achieve this goal, the company implements several key initiatives, which not only contribute to a healthier planet but also lead to cost savings and improved operational efficiency.

- **Renewable energy mix:** TVS Motor Company actively relies on renewable energy sources, a strategy that has proven successful. As of 31 March, '25, 95.32% of its total energy mix was renewable energy. This includes augmenting its wind energy capacity and procuring green power through the Indian Energy Exchange. These efforts help reduce dependence on fossil fuels and associated emissions.
- **Energy Efficiency Upgrades:** TVS Hosur facility, a beacon of our commitment to sustainability, was certified under ISO 50001:2018 for its energy management systems. Additionally, provision for occupancy sensors in all R&D offices, elimination of heaters in washing machines etc.

9. Provide details related to waste management by the entity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Waste generated (in metric tonnes)			
Plastic waste (A)	metric tonnes	582.23	504.32

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes

TVS Motor is dedicated to achieving Zero Waste to Landfill across all operations. The Company's comprehensive waste management plan ensures responsible handling, disposal, and resource recovery, aligning with this ambitious goal and our broader vision of sustainability. During the reporting period, 3 of its manufacturing facilities in India were certified as "Zero Waste to Landfill Facility" by Confederation of Indian Industries (CII).

Hazardous Waste Management: Total hazardous waste generated is sent for co-processing in cement plants, which is converted into alternative fuel, minimizing environmental impact and promoting circularity.

Non-Hazardous Waste Management: All non-hazardous waste is recycled.

Continuous reduction of Hazardous & Toxic Chemicals: At TVS Motor, the Company's commitment to sustainability is ongoing. The Company has adopted a strategy focused on process optimization, material substitution, and sustainable sourcing to reduce hazardous and toxic chemicals. TVS Motor is continuously working towards phasing out hazardous substances, replacing them with eco-friendly alternatives, and implementing closed-loop recycling systems to minimize waste generation

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N)	If no, the reasons there of and corrective action taken, if any.
Not Applicable				

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not Applicable					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). Yes

If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Not Applicable				

LEADERSHIP INDICATORS

Total Scope 3 emission intensity (optional) - the relevant metric may be selected by the entity		-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N)

If yes, name of the external agency.

3. With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not Applicable

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative	Corrective action taken, if any
1	Heat Recovery	Introduction of compressor waste heat recovery system powder coating process installed at Hosur Plant where waste heat recovery from compressor is utilized in place of burner	Reduction of Heat pump power consumption by 2.4 lakh units per annum (800 units/day) and Reduction of Fuel consumption by 54000 kgs per annum (180 kgs/day)	-
2	Glass water bottle	Glass water project implemented at Hosur and an average of 750 bottles are distributed daily to Hosur, TVS IQL, Electronic City and Koramangala offices.	Elimination of Single Use Plastic (SUP) water bottles preventing from Land & water contamination and Keeping employees hydrated.	-
3	Infrastructure upgradation	Sewage Treatment Plant of 400 KLD capacity established at Mysuru plant and the designed treated water quality parameters achieved.	Improve treated sewage water quality, less operational cost and Suitable for secondary applications.	-
4	Screw press	Bio-Sludge Dewatering unit with mechanical fine screen installed to remove the moisture from Sewage sludge generated during the treatment.	Reduces sludge volume, Dewatered sludge are repurposed as compost, Protects downstream equipment such as pumps and membranes from blockages.	-
5	Sustainable water management	TVSM has taken conservation efforts like rainwater harvesting, recycling, Zero Liquid Discharge, and process optimization to reduce freshwater dependency.	Achieved Water Positive certification across its manufacturing plants located in Hosur, Tamil Nadu with Water Positive Ratio – 1.21, Mysuru, Karnataka with Water Positive Ratio – 1.24 and Nalagarh, Himachal Pradesh with Water Positive Ratio – 1.49.	-

	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative	Corrective action taken, if any
6	Energy-Efficient EC fan	Conversion of conventional air supply unit blowers into energy efficient electronically commutated fans at Hosur Plant.	1000 Kwh reduction in paint plant power consumption	-
7	Compressor Optimization	Pressure based on load pattern was replaced using Compressor optimization at Hosur plant	Elimination of compressed air requirement which resulted in saving 31000Kwh per Year	-
8	Heat pump	Implementation of Heat pump system to pretreatment process at Hosur Plant.	Fuel Saving (410 Kg per Year of Propane)	-
9	Sensor Installation	Provision for occupancy sensor in R&D centre office areas	Power consumption reduction by (1100890 Kwh per Year)	-

6 Does the entity have a business continuity and disaster management plan?

Yes

Yes, TVSM has a comprehensive Business Continuity and Disaster Management Plan in place. This plan focuses on risk identification, maintaining critical operations during disruptions, and ensuring swift recovery. It incorporates data backup and recovery protocols, alternative communication methods, and designated response teams to manage emergencies effectively. Regular drills and simulations enhance preparedness, while continuous reviews and updates ensure adaptability to evolving risks. By minimizing downtime, protecting assets, and maintaining operational resilience, TVSM's plan safeguards both its business continuity and reputation, reinforcing its ability to withstand and recover from disruptions.

7 Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

In FY'24, TVSM conducted double materiality assessment to assess their supply chain management and identified area of risk and opportunities. The Company has demonstrated its dedication to sustainability through strategic sourcing and supplier engagement. Materials are selected based on their quality and sustainability. By partnering with suppliers committed to environmental stewardship and human rights, the Company aims to minimise its environmental impact and promote a more sustainable, ethical automotive industry.

8 Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

Out of 445 critical suppliers 112 were targeted in phase I of My Sustainability Index (MSI) which constitute 57% of overall suppliers based on spend basis. Among Dealers 100 were targeted under Phase I of MSI where 95 dealers were assessed on environmental impacts.

9 How do you track & strengthen green credit generation by company and value chain. How many Green Credits have been generated or procured:

a. By the top ten (in terms of value of purchases and sales, respectively) value chain partners

TVS Motor is actively exploring opportunities to earn carbon credits through the sale and widespread adoption of electric vehicles (EVs). The Company aims to generate verified carbon credits under national and international frameworks. The proposed strategy includes integrating digital MRV systems, engaging with carbon registries, and ensuring third-party verification for transparency. This approach not only supports India's Green Credit Programme but also reinforces the company's journey net-zero. As EV adoption grows, the Company envision's creating a scalable model that links green mobility to measurable environmental and economic value.
