The TVS Apache RTR 180 pushes the limits of pure racing performance. This race machine is powered by a cutting edge Race Tuned Fuel Injection, and takes the racing experience into the next evolution of performance.

PURE RACING PERFORMANCE

RT-Fi OVERSQUARE ENGINE

The oversquare engine powered by Race Tuned Fuel Injection delivers blistering performance in any race condition. Because racing performance should always be unconditional.

16.79 PS | 0-60km/h in 4.8 s

GLIDE THROUGH TECHNOLOGY

This first-in-segment feature allows for effortless launches off the line, with a slow release of the clutch and no throttle operation.

MIG SUSPENSION

The race derived 5 step adjustable MIG suspension features adjustable shocks, giving the racer the confidence to perfect their technique on the track and road.

SYNCHRO STIFF CHASSIS

The spine of the racing machine provides stiffness for straight-line performance and flex for aggressive cornering. The setup provides the racer absolute confidence to race on the very edge.

SUPER-MOTO ABS

The Single Channel Super-Moto ABS has been honed and perfected by racers on the track. The system provides ultimate braking control and delivers supreme braking feedback, giving the racer confidence and safety.

UNMATCHED RACING PRESENCE

BEAST-INSPIRED HEADLAMPS

These headlamps with LED guide lights resemble a pair of animalistic eyes, a clear symbol of dominance. The throw from the headlamps provides clear visibility.

SCULPTED DIGITAL DISPLAY

The console features a lap timer, top speed indicator, and also displays other essential information. It is backlit for visibility in any condition.

ALCANTARA-LIKE RACING SEAT

The racing seat gives the racer maximum comfort, even in the longest, most challenging roads & terrains.

MUSCLED TANK

The chiseled tank sports unique race graphics, and has a muscular appearance. The tank also reduces engine heat by 10°C, doubling as both an essential performance feature and a statement of pure racing presence.
